DETAILED ACTION

Allowable Subject Matter

Claims 1-9 are allowed.

The following is an examiner's statement of reasons for allowance:

The references alone or in combination fail to teach a meltable ink composition that is solid at room temperature and liquid at a higher temperature wherein the meltable fraction comprises at least a crystalline part and the ink has a deformation energy of less than 20×10^5 Pa.s at a temperature equal to the top temperature limit. Therefore the references are not seen to teach or fairly suggest the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
